

Yale CCTV System

HD Camera Systems

HD CCTV Range

The Yale Smart HD CCTV System can be part of a complete Yale Smart Home Security System, allowing you to connect to Yale Smart Locks (with Yale Module) and EF Series Alarms, with control through the Yale CCTV app.

HD Cameras

View and record HD quality CCTV images simultaneously. 2 camera or 4 camera kits are available to cover multiple areas of your home. 2 camera kits are expandable to 4 channels & 4 camera kits are expandable to 8 channels.

30m Enhanced Night Vision

Includes weatherproof, HD Yale cameras with powerful infrared LED night vision up to 30m.

View & Record

View live or playback footage in HD on your TV via HDMI port or through PC monitor via VGA port.

Remote Viewing

Live viewing in the palm of your hand on 3G/4G or Wi-Fi enabled Smartphone and tablet devices including iPhone, iPad and Android devices using the free Yale App.

Recording & Backup

Pre-installed hard drive, includes ability to backup recorded footage to a USB or external HDD.

Connectivity

Complete your Yale Smart Home System by adding the CCTV/Alarm Link Adaptor to your CCTV system, allowing you to connect Yale Connected Smart Locks and EF Series Alarms with control through the Yale CCTV App.
